Success in a Challenging Market

FEI is on the Fast Track

In this economy a new lease transaction is encouraging and exciting news! Fratto Engineering, Inc. (FEI) an established and growing MEP firm was anticipating future growth when they decided to move to 2201 N. Collins in Arlington, Texas. FEI's quality work and expertise in the health-care and school markets continues to serve them well as evidenced by repeat business and new clients. The September '09 move provides greater flexibility and better use of resources. FEI's Architectural clients remain in close proximity and the new location in North Arlington allows easy access for new clients. In addition to catering to the needs of their existing client base, FEI has been actively marketing for the past year and the new location easily accommodates additional business resulting from those efforts. North Arlington continues to flourish and give reassurance that FEI is definitely in a place that they want to be. Darrel Higginbotham with SCM Real Estate brokered the lease transaction. This lease comes on top of a recent renewal and expansion at the Landmark building. Mark Fratto, President, Fratto Engineering, Inc. can be reached at 817-461-2337, mfratto@frattoeng.com.
